I am a Third-year Computer Science Student at VIT Bhopal. I have knowledge and keen interest in JAVA language Web Development(Frontend and Backend both). I also know the basics of Python and C++ and currently I'm working on my DSA and Competitive programming skills. I enjoy solving technical problems, coding and making web Applications. I enjoy meeting people and working with them in a team environment. I am a quick learner with a fun, outgoing personality. In addition, I excel in my ability to work under pressure and handle stressful situations very well.

SKILLS

Programming Languages: Python, C++, Java.

Web based Language: HTML, CSS, Javascript.

Frameworks/Technologies: NodeJS, ReactJS, Express, mongoDB, Github, Git.

Developers Tool: VS-code, Visual Studio, IntelliJ IDEA

PROJECTS

VITaI:

- Project VITaI is a web application designed specially for VIT Bhopal students. It aims to solve problems of students by providing all the vital information and documents that they search for and ask seniors about.
- This site is easily accessible and provides adequate data efficiently in few simple clicks. You can easily search, sort or filter data as required.
- Our website provides: Study Material, Clubs and Chapter Details, Upcoming Events and Hackathons and Road-maps.

Gym-Website:

- I made this project while learning about Web Development.
- This site contains the details of the local Gym in my area.
- User can also Join the gym if he likes through The form option available on the site.

Food Delivery Website:

- This is the second website I made during my learning.
- The site contains the details of the food available and the delivery charges for them according to the distance from users place.
- It also contains a Sponsors section and contact section through which user can reach to us.

Tic-Tac-Toe:

- This is a game i made using C++ where two players can play.
- Player 1 uses 'X' and player 2 uses 'O' for playing.
- In future I will deploy this program into a website where a good UI will also be present.
